TO THE LEGISLATIVE ASSEMBLY OF ONTARIO:

WHEREAS the Liberal government of Kathleen Wynne, in 2015, imposed on Ontario parents, without proper consultation, an ideological sex-ed curriculum that, in many places, was age-inappropriate and had the effect of sexualizing children;

AND WHEREAS the Wynne sex-ed curriculum has, since 2015, forced Ontario teachers to promote ideology over facts, including the controversial and unscientific "gender identity theory",

We the undersigned petition the Legislative Assembly of Ontario as follows:

1. That the Minister of Education immediately repeal the 2015 changes to the sex-ed component of the Health and Physical Education Curriculum; that she restore, for the 2018–2019 school year, the previous sex-ed component; that she immediately instruct Ontario school boards and teachers that none of the controversial aspects of the Wynne sex-ed — especially the unscientific "gender identity theory" — be taught in Ontario schools, neither to the classroom nor in private instruction to individual students; that she conduct a broad and exhaustive consultation with all Ontario parents; and, subject to those consultations, that she replace previous versions of the sex-ed component with something that is both age-appropriate and that avoids the sexualization of Ontario children;

2. And that, starting in September 2018, the Minister of Education instruct every Ontario school board to ensure that every Ontario parent receives sufficient notice of any sex-ed instruction provided in the jurisdiction of that school board, and in such a manner that all parents can easily exercise their right to "opt out" of any particular sex-ed class by removing their child from that class.
