Dr. Megan Bergman

I joined the College of Veterinarians of BC in July 2021 with a Doctor of Veterinary Medicine degree from Western College of Veterinary Medicine, graduating in 2002. Beginning my career as an equine veterinarian, with a primary focus in regulatory veterinary medicine. In 2010 I became the Inspection Manager for Manitoba East and later Inspection Manager for Animal Health in Manitoba. I was given the opportunity to act as the Regional Director for the CFIA in Manitoba in 2013. In 2014, I accepted the position of Chief Veterinary Officer for Manitoba and in 2018 became the Executive Director of the National Farmed Animal Health and Welfare Council. I have now been supporting the College for over a year and a half, and a key priority for me is to continue to look for opportunities to ensure that the College is equitable and inclusive in our regulatory activities and reflects the diversity of the veterinary profession in BC.
