

MOVING TO ADULT CARE

New Jersey Transition to Adulthood Comprehensive Care (NJTACC) is an interdisciplinary team designed to assist teens and young adults with intellectual and developmental disabilities as they face the challenges associated with their transition to adult services and medical care.

SERVICES:

- Care coordination: Liaison to adult primary and specialty providers
- Advanced planning: Legal capacity, finances, residential support
- Community planning: Direct supports, employment, day programs, transportation
- Comprehensive individual needs assessment

CLINIC LOCATION:

Children's Hospital of Philadelphia
Specialty Care, Princeton at Plainsboro
101 Plainsboro Road
Plainsboro, NJ 08536

TEAM MEMBERS:

Clinical Director
Care Coordinator
N.J. Division of Developmental Disabilities Supports Specialist
New Jersey Family Consultant

This is a specialty program and is not intended to replace primary care.

For more information and scheduling, families and medical providers can call 215-590-1295 or email NJTACC@email.chop.edu.

Breakthroughs.
Every day.®
