Thank you to my colleagues for the opportunity to represent you on the CVBC Council for the past 3 years. It was a very eventful 3 years, and the pandemic started it off with a bang!

I have thoroughly enjoyed all the ups and downs of being on Council and have met many exceptional people through my work at the CVBC. The Council and CVBC staff have a wonderful team that has inspired so much progress in a few short years.

It was an eye-opening experience for me as a general practitioner to be involved with the inner workings of our regulatory body and an experience I would recommend to anyone interested in having a say in how our profession is regulated.

Sincerely,
Dr. Jane Mancell
