Ontario Long Term Care Clinicians is a not-for-profit organization of Doctors and other clinicians who work in Long-Term Care Facilities.

VALUE STATEMENT

We believe a dedicated, collaborative, inter-professional team with Physician leadership provides the highest quality, comprehensive evidence-based medical care for LTC residents.

VISION:

All Ontarians in Long-Term Care will receive excellent care.

MISSION

1. **Promotes education, advocacy and engagement.**
2. **Provides an annual conference, "Practical Pearls in Long-Term Care".**
3. **Advocates for the residents who are living in LTC facilities through dialogue with the Ministry of Health and Long Term Care and other stakeholders in Long-Term Care.**

PRESIDENT'S INVITATION

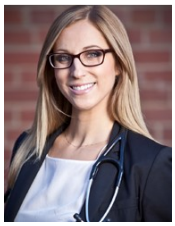
If you are a clinician practicing in Long Term care - Physician, Nurse Practitioner, Pharmacist, or other health care professional - "Practical Pearls in LTC 2021 Virtual Conference" has meaningful content for you. Now is a time to reflect, assess, learn and move forward from the COVID-19 pandemic. #PPLTC21 is the largest conference in Canada for LTC clinicians and this year the virtual platform has been adapted to provide you with *an enhanced virtual experience, with built in flexibility and networking opportunities*. A broad range of topics and social events are highlighted by several Keynote Presentations including Dr. Carla Cheatham's "*Thriving Towards Post Traumatic Growth*" and Dr. Jack Kitts, Commissioner of the Ontario LTC Commission "*The Long-Term Commission – Lessons Learned and Recommendations Going Forward*".

We look forward to gathering with you to help ensure excellent care for all who call LTC their home.

See you there!

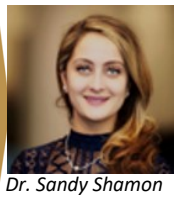
Sincerely,
Ben Robert, MD, CCFP (COE, PC), MBA
President, Ontario Long Term Care Clinicians

CONFERENCE CO–CHAIRS' INVITATIONS



Dr. Katarina Lakovic

We invite you to Practical Pearls in LTC 2021 (#PPLTC21), once again being offered virtually! After another difficult year, we are looking forward to bringing LTC clinicians together to reflect on the lessons learned, ways in which we can move towards healing from the trauma and losses we have suffered, and how to continue to improve our skills and knowledge so we can best face the challenges that lie ahead.



Dr. Sandy Shamon

Our conference planning committee has worked diligently to put together a strong scientific program with the most up to date topics in LTC medicine. We strived to create a program with a breadth of topics to address your learning needs, focusing not only on the devastating effects of the pandemic, but the many other aspects of the multifaceted and complex care needs of our LTC patients. When you browse our program you will see evidence-based workshop sessions on important clinical topics as well as plenary and panel sessions that reflect our education, advocacy and engagement efforts.

The challenges and learnings gained throughout the pandemic have only solidified our commitment to ensuring that PPLTC reflects both our vision and mission statements. Until we meet again in person, we hope you will join us virtually this fall as we learn and work together to champion quality care for all Ontarians residing in LTC.

WHY ATTEND?

THIS IS THE NATION'S LEADING CONFERENCE FOR LTC PHYSICIANS AND OTHER PRIMARY CARE PROVIDERS!

The Vision of Ontario Long Term Care Clinicians is ***all Ontarians in Long Term Care will receive excellent care*****.** OLTCC is the largest organization of Long-Term Care Physicians in Canada. Our membership includes Medical Directors, Nurse Practitioners and Pharmacists.

The ***Mission of OLTCC is to promote education and advocacy***. The Scientific Program Committee presents a program of current and emerging topics related to medical care in Long –Term Care. Evaluations and suggestions from previous conferences guides the creation of the program. Many workshops programs were submitted by colleagues who are truly the front-line experts in clinical Long-Term Care.

Dealing with COVID-19 for over one year—the committee has recognized the need to offer topics and updates on many issues that were once not issues in the past. This conference highlights pertinent information and take-away tools that attendees can utilize immediately in their practices. Hear from top experts and highly-skilled clinicians and give yourself the opportunity to learn and be updated with the most current content! Visit exhibitors and learn more about what they offer and how they support the LTC Physicians and others. Visit the poster presenters and enjoy networking through the meeting hub and virtual connections.

Many of the residents who we care for are approaching end of life. Long-Term Care provides expert care that assures safety, comfort and dignity. Hence, the conference provides sessions on palliative care and advance care planning and many more relative topics.

On behalf of the Scientific Program Committee and OLTCC we invite you to attend Canada's prime conference that promotes expertise and quality in Long-Term Care.

3:00 PM—4:00 PM **MORE THAN SURVIVAL; THRIVING TOWARD POST-TRAUMATIC GROWTH**

Carla Cheatham, MA, MDiv, PhD, TRT

Professional caregiving is both incredibly rewarding and involves challenges during even the most routine conditions. During a crisis the risks for moral distress, moral injury, and secondary/vicarious trauma are multiplied. The fields of resilience, emotional intelligence and post traumatic growth have much to teach about how to thrive through, rather than merely survive, these times. This presentation will discuss practical, immediately actionable techniques to build healthy skills for the sake of the professional and those for whom they care.

By the end of the session, participants will be able to:

1. Define the risks and symptoms of moral distress, moral injury and trauma during crisis.
2. Explore the research into resilience, emotional intelligence and post-traumatic growth.
3. Analyze practical techniques for putting this information into personal and professional practice.
