

Data Collection Request

Your child has requested to take a course being offered by **Learn Ventures, LLC**. This pilot program is being provided and funded by Learn Ventures to your child's school free of charge and is external in all material respects to your child's school. In exchange for this free offering, we will collect data about your child's course participation including: attendance, progress towards goals, and performance on online platforms (e.g., Khan Academy, Coursera, edX, Slack). The purpose of this data is to improve the course for future students and to facilitate the professional growth of the instructor. The information collected about your child will be protected within Learn Ventures, LLC, will not be sold to other parties and will be collected and stored in compliance with applicable federal and state laws and regulations.

In order for Learn Ventures, LLC to support this pilot program and collect data on your child (such data that could be personally identifiable), the Family Education Rights and Privacy Act (FERPA) requires that Learn Ventures, LLC obtain your consent due to the possible exposure of your child's information to those involved with the pilot program and other participants. It is important to note that by signing the consent below, you authorize Learn Ventures, LLC to collect data from the pilot program, including potentially personally identifiable information of your child and use that data in its research.

Additionally, courses may be offered to remote students, so audio and video recording of the classroom is required. The videos will focus primarily on the instructor, but may also include students and other guests in the room.

Please note that Learn Ventures, LLC appreciates the confidentiality of your child's information and will seek to maintain confidentiality to the extent possible. With this being said, however, as the pilot program will be subject to audio and video recording of the classroom, Learn Ventures, LLC cannot guarantee that your child's data will be confidential and it may be possible that others will know about your child's participation and the data collected therefrom.

Please complete the form below by filling in your child's name and signing the parental approval. As our program grows, please expect some additional consent forms in the coming weeks and months. Please note that providing your consent on behalf of your child is completely voluntary and there will be no adverse effect on your child if you elect not to provide your consent. In the event you elect to not provide your consent, however, your child will not be able to participate in the pilot program.

If you have questions with respect to the pilot program, please contact me at Lev@learn.ventures.

Thank you for your participation in this exciting pilot program!

Lev Novikov
Learn Ventures, LLC

Data Collection Permission Form

Student Name: _____

Course: _____

As a parent or legal guardian of the above named student, I hereby give permission to Learn Ventures, LLC to enroll the student in the online platforms associated with the above named course including but not limited to: Khan Academy, Coursera, edX, and Slack. I understand that I will be provided the Privacy Policies of each platform and I agree to abide by each platform's Terms of Use. I hereby understand that by providing my permission for the above named student's participation, that Learn Ventures, LLC shall be entitled to collect data about the above named student and use such data in assessing, improving and modifying the pilot program and the professional growth of its instructor. I confirm that I have read the information provided with respect to the pilot program and understand my child's participation in it.

I also give permission to collect data about the student's performance in connection with the course including, but not limited to: attendance, goal progress, survey responses, notebook entries, and performance on online platforms. I understand that the collected information will be available to users and will not be sold by Learn Ventures, LLC.

I further give permission to record audio and video of the student, including the student's full name and likeness, during the course sessions and hereby consent to the participation of the student in taking of videotapes of your son/daughter and his/her school related work with respect to the pilot program. I understand that these photographs, videos or other audio/visual recordings may be livestreamed on the Internet or stored for future broadcast. I also understand that Learn Ventures, LLC has the right to edit, use and reuse these recordings. I confirm that I have read and understand the Privacy Policy provided to me by Learn Ventures, LLC.

By signing this permission form, the undersigned, as parent or legal guardian of the above named student, hereby release Learn Ventures, LLC and its agents and employees from all claims, demands and liabilities whatsoever in connection with the above.

Parent Name: _____

Date: _____

Parent Signature: _____

Privacy Policy

Learn Ventures, LLC is committed to protecting the privacy of the schools and students we serve. In exchange for free courses, we collect information about student performance which helps us test and refine our curriculum. This privacy policy explains how we collect, use, and share information about students:

How We Collect Student Information

Enrollment: When a student enrolls in one of our courses we collect personally identifying information such as the student's name, grade, email address, and school.

Attendance & Performance: We keep records of student attendance, goal progress, and use of online platforms such as Khan Academy, Coursera, edX, and Slack including videos watched, tests and assignments completed, and project-related work.

Audio & Video Recording: We record audio and video of some course sessions which may capture a student's likeness and full name.

Optional Surveys: Students may complete optional surveys about their course experience.

Grades & Report Cards: We assign grades and report card comments for each student.

How We Use Student Information

Curriculum Development: The data we collect will help us test and refine our curriculum for future students or create new course offerings.

Professional Growth: We may use the collected data to assess the instructor's performance.

How We Share Student Information

We will provide schools with the student information they request per our agreement with them such as attendance, grades and report cards. We may also broadcast audio and video of the classroom to remote students enrolled in our courses.

Otherwise, we will not sell student information to third-parties unless required by law.

Information Security

We are committed to protecting student information. We store our data on a dedicated cloud platform which limits access to employees who have a legitimate business need for student information. In the unlikely event of data breach, we will attempt to reasonably notify all affected users.

Updates

Our Privacy Policy may change from time to time and updates will be posted on our website.
