REGISTER FOR CANSTRUCTION 2023

By Belinda Sanchez

Canstruction is an annual event where AEC design industry professionals compete and build structures of canned food which is then donated to the San Antonio Food Bank to help feed the hungry.

> **Canstruction is an international hunger relief charity that raises millions of pounds of food each year for local food banks. Every year, Canstruction chapters have competitions citywide where teams create CanArt® to compete for awards in the following categories: Best Meal, Structural Ingenuity, Best Original Design, Most Cans, Best Use of Labels, and People's Choice awards. Winners from each local competition then go on to compete internationally in these categories.**

SDA San Antonio, in partnership with AIA San Antonio, has hosted the CANstruction Citywide Competition for the last 16 years. Another partner for Canstruction is North Star Mall, where all of the structures will be constructed and displayed in September, which is hunger awareness month.

Planning has begun for this year's event and registration is now open for teams to sign up. The information session for all teams will be hosted on June 12 at the AIA Center for Architecture.
