NEW YEAR - NEW BOARD!

By Laurie Breen, SDA
ESA Mechanical & Electrical Engineering, Inc.

The San Antonio Chapter is excited to kick off a great year with a new Board to navigate us through 2023! Our members gathered at the AIA offices, along with a guest list that included our professional colleagues, sponsors, friends, and family members, to witness the installation of our newest leaders. 2023 AIA San Antonio Chapter President, Elizabeth Hurd, inducted the board members and our outgoing President, Roxanna Rosales, CDFA, was presented with our traditional silver gavel pin.

This year's board members come from construction, architectural and engineering firms from across San Antonio. Three of our Board members have been in SDA for less than five years and we applaud them for stepping into leadership roles within our Chapter. The events and educational opportunities that SDA hosts throughout the year would not be possible without our Board leading the way!

sda San Antonio Chapter

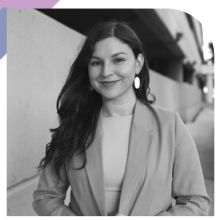
2023 OFFICERS

Danielle Salvador, CDFA
President

Joan Silva, CDFA
President-Elect

Stephanie Mayo, CDFA
Vice President

Loretta Rodriguez, CDFA
Treasurer



Jaslyn Garza, SDA
Director

Celina Lopez, SDA
Secretary

Roxanna Rosales, CDFA
Past President

70% of our Board Members are Certified Design Firm Administrators

The CDFA certification recognizes administrators and managers who have met a work experience requirement, displayed a commitment to continuing education, and passed a comprehensive examination based on these areas of study.

Our Board, like our membership, is a diverse representation of the AEC industry in San Antonio.
