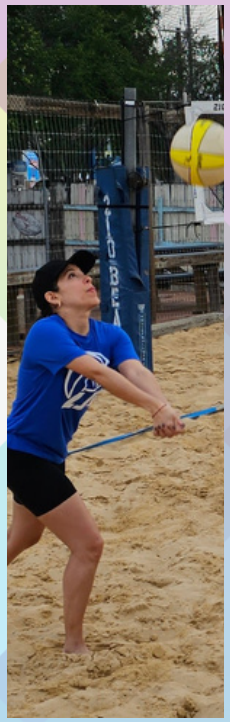
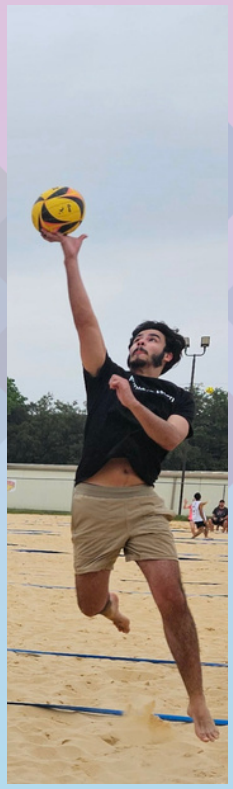
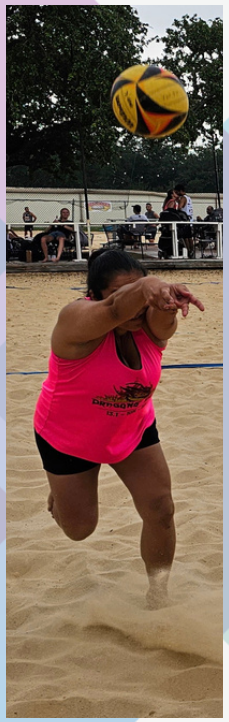
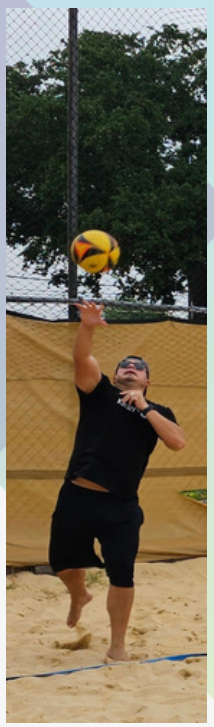
AEC SERVES

1st Annual Sand Volleyball Tournament Fundraiser









LEAVING IT ALL *on the* Sand

by Belinda Sanchez

AEC Serves hit the sand pits of Sideliner's Grill this weekend as SDA San Antonio hosted its first annual Sand Volleyball Tournament Fundraiser. Eight teams gathered on an overcast but breezy beautiful Saturday Morning to compete for a cash prize and a mammoth trophy that will travel every year to reside with the championship team.

Participating teams included:

·Maestas Civil Engineering
·LJA Engineering
·Merrick & Company
·Open Studio Architecture
·Pfluger Architects
·PBK Architects
·Kimley-Horn
·Knight Office Solutions

The tournament kicked off with a pool play, with all teams playing each other for rankings, then moved into single-elimination championship rounds. Semi-Finals saw Kimley-Horn face off against Maestas Civil Engineering and Knight Office Solutions taking on LJA Engineering — both great matches going to the wire, with Kimley-Horn and Knight Office Solutions taking the wins and moving on to the championship game.

All participants became spectators of a nail-biting final game as the Knight and Kimley-Horn teams left everything on the sand. Countless volleys, bumps, and spikes as both teams battled to win and take home the prize. When the sand settled, Kimley-Horn stood victorious.

Knight Office Solutions

Congratulations Kimley-Horn. We'll see you next year to defend your title, in the meantime, that trophy looks good on you!

Kimley-Horn
