PROPOSAL SUBMISSION

Rediscovering Resilience

Indiana Youth Services Association (IYSA) and the ACEs Indiana Coalition invite you to submit proposals for the 2nd Annual Rediscovering Resilience Conference. This in-person conference intentionally focuses on educating individuals at all levels on their trauma-informed journey. That journey can include working with organizations, communities, individuals, and ourselves.

Past education has included the neurobiology of trauma and the nervous system, Adverse Childhood Experiences (ACEs) and Positive Childhood-Experiences (PACEs), fostering resilience, and building a trauma-informed/self-healing community.

Join us for two days of intentional connection, collaboration, and healing.

All proposals are due by March 31st.
You will be notified if your proposal is chosen by April 11th.
