Detection and Management of High Blood Pressure

Massachusetts
Blood Pressure Trainings Spring 2023

High blood pressure is one of the nation's most important public health challenges. Here in Massachusetts we can work together to reverse this trend, but it is imperative that we take a comprehensive approach to addressing blood pressure from measurement, to diagnosis, to treatment and control.

- **Are you interested in improving patient outcomes?**
- **Are you involved with the Million Hearts Campaign, Patient Centered Medical Home, Managed Care, a QIO/QIN, FQHC, hypertension quality improvement initiatives?**

Join us for a day-long no-cost training - **Detection and Management of High Blood Pressure Massachusetts Training Series.** **Registration is required.**
Sign up for one of the two options below. Class size will be limited to 25 participants at each location. Attendance is available in person only. There is no virtual option. These trainings will be held on:

- **May 3, 2023 (8:30am-12:30pm): Mass Dept of Public Health, 67 Forest Malborough MA, Room #1020 (to register, click here)**
- **May 4, 2023 (8:30am-12:30pm): Parkway Community YMCA, 1972 Centre St, West Roxbury, MA (to register, click here)**

In this training, we review the types of high blood pressure, common errors, equipment, blood pressure measurement techniques, self-measured blood pressure monitoring, and more! Participants will come away knowing they are performing blood pressure measurements accurately.
