It’s the end of a great 19 year run leading Spectrum News Syracuse. In my more than 39 years in the business, launching News 10 Now and sustaining 24 hour local news in my hometown was my greatest honor. The hundreds of people I worked with over those years are my greatest treasure. Thank for being so much more than my work family. You’re all tremendous. I hope I did something along the line that touched your life and career in a positive way. To those I leave behind, keep the spirit alive and keep up your great work. I know you will, and you know I’ll be watching. Now on to my next adventure...early retirement, long-delayed work around the house, some much-needed rest...and we’ll see what comes down the road after that. The pix: a few moments in “pandemic time” from the historic train station I have called “home” since 2002. It’s a special place that will hopefully be full of lots of great people again soon. Cheers to a much better 2021 for all!
