As the great Robert Earl Keen would say... Texas, I'm comin' home to you! 🎶

I'm thrilled to share Matt and I are starting a new adventure in Houston next month. I'm returning to KPRC, the station where it all started 30 years ago as an intern!

My new role is Digital Executive Producer of Streaming Programs. As traditional TV news audiences have continued to shrink, I've loved everything about trying to reach people through streaming these last couple years. So I'm excited to continue that work where family, dear friends - and the Houston Texans - will be close by. 😄

See y'all soon...
