

DONALD AND BARBARA  
**ZUCKER SCHOOL of MEDICINE**  
AT HOFSTRA/NORTHWELL

## Academy of Medical Educators' Inaugural Medical Education Event

Speaker: **David A. Hirsh, MD, FACP**

The George E. Thibault Academy Associate Professor  
and Director, Harvard Medical School Academy

Events: **Wednesday, November 7, 2018**

"The Sciences of Learning and the Future of Medical Education"

- School of Medicine, West MET (W134)
- 4-5:30 p.m.
- Target Audience: SOM Faculty, Course Directors (MS1-4 years), Education Deans, AME Members and Applicants
- Learning Objectives:
  - Learners will be able to
  - 1. Define and discuss the empirically derived sciences of learning;
  - 2. Practice the sciences of learning metacognitively within the session;
  - 3. Consider how to translate the sciences of learning into medical education.

*Event to be followed by Scholarship Day/Poster Presentations of Students' Research*

**Thursday, November 8, 2018**

"Longitudinal Design of Clinical Education: Beyond the Tipping Point"

- Center for Learning and Innovation – 1979 Marcus Avenue, Suite 101
- 7:30-9 a.m.
- Target Audience: Clinician Educators, Program Directors, APDs, Core Clinical Faculty, AME Members and Applicants, Preceptors
- Learning Objectives:
  - Learners will be able to
  - 1. Interpret the "case for change" driving medical education reform;
  - 2. Recognize principles derived from the sciences of learning that underpin educational transformation;
  - 3. Interpret the data about one model—Harvard's Cambridge Integrated Clerkship;
  - 4. Extrapolate features of the learning sciences that advance educational structuring in your context.
