I am excited to announce Grendel Levy as the next News Director at KAIT. She will start sometime in early to mid-May.

Grendel is currently the Assistant News Director at WEEK in Peoria, IL. She has previously been a news director at WOWK in Charleston/Huntington, WV, and KIVI/KNIN in Boise, ID. She has also been a Consumer Investigative/Special Projects Producer at WDSU in New Orleans and was an adjunct professor while in Idaho.

Her experience combined with her proven track record of improving the team, news content, and positive morale make her a great fit. I know she will do a fantastic job leading the best group of journalists in our region.

Josh will be with us through May.

I included Grendel's email address in this message if you would like to visit with her before she arrives.

Welcome to Region 8 Grendel!
