Total Ministry Surplus (Deficit)	$ (62,000)	$ (62,000)

Comments:

Following a strong finish to 2020 which launched Trinity into 2021, January offering income started below target, and were also below last January's offering totals by 4%. Expenses for January were a bit over budget, but this was due in some part to annual expense items due in January as well as on-going additional costs associated adjusting to COVID impacts. As we continue to walk in faith into and through these uncertain times, please be sure to visit the Trinity website for opportunities to connect, give or serve, or to let us know of a need you may have in this time of uncertainty.
