Hello,

I wanted to let you know that we have got about a week left to apply for Silicon Valley Electric Vehicle funding!

The **CALeVIP** program is offering up to $720,000 per commercial entity towards the procurement and installation of new Electric Vehicle Charging Stations in **Silicon Valley**.

Our Company**, Zero Impact Solutions** executes this process end to end providing the design, construction, procurement and management services to Retail property owners in Santa Clara and San Mateo Counties. Based on the Governor's recent signing of an Executive order, the state of California is aiming to turn 70% of all new vehicles sold to be electric by 2025 and 100% by 2035.

In order to achieve this goal, they are allocating funds to cover the equipment and installation of charging stations to qualified businesses. This also includes a 5 year platform services as well as a 5 year extended warranty on the EV Chargers. In addition, the rebate will cover any upgrades necessary to the transformer or switchboards, these upgrades are of great benefit to the existing electrical infrastructure. The funding is dispersed though first come first served reservation system opening up on **December 16th, 2020**. (Funds will expire within an hour of launch).

To take advantage of this generous promotion, contact me at your earliest convenience, my contact information is listed below!
