Reineke Family Dealership partners with Local Schools and Organizations to raise more than $75,000

NORTHWEST, OH– Reineke Family Dealerships is excited to announce that during the 2018 year, the dealership group partnered with local schools and non-profit organizations to help raise $75,957.15, which has gone directly to each school and organization's specified fundraising project.

Funds are raised during test-drive events held at various Reineke Family Dealership locations in conjunction with The Ford Motor Company (Drive 4 UR School, Drive 4 UR Community) and The Lincoln Motor Company (Driven to Give).

"This program has allowed our dealership to work closely with our local communities," said Tom Reineke, "and at the same time, help the schools and organizations to complete a project that needed additional funding, or purchase new playground equipment that was in need of replacement."

Since the program's inception in 2011, Reineke Family Dealerships have helped various schools and organizations raise more than $350,000. "The money raised is making a difference in our communities and it all starts with a five minute test drive," said Dan Reineke.

If you or your group have interest in an event of this type, please contact Levi Heldman for more information.
