IACP STRATEGIC ENDS / Draft as of 9 October 2019

1.0 IACP exists so that members enjoy an environment necessary for success as pharmacy compounding professionals. *(with results optimizing return on available resources)*

PRIORITY RESULTS (not reflecting any order of priority)

1.1 **(ACCESS)** Timely, affordable, quality-assured customized medication is available to and accessible by patients.

- 1.1.1 Federal and state legislation and regulation are promulgated with patient safety *and* access in mind.
- 1.1.2 The supply chain and regulatory framework for compounded medications is configured so that the immediate and ongoing needs of physicians and patients for compounded medications are met.
- 1.1.3 Increasingly, prescription insurance programs support affordable and accessible customized medication.

1.2 **(ADVOCACY)** Public policy, legislation and regulation (state and federal) supports the needs of pharmacy compounding professionals.

- 1.2.1 IACP is seen as the leading organization representing the advocacy interests of pharmacy compounders and is viewed as an essential organization to engage on compounding issues.
- 1.2.2 Policy makers, legislators and regulators seek out IACP's perspective prior to enacting pharmacy compounding related public policies, legislation or regulations.
- 1.2.3 Members and stakeholders are aware of relevant pending and enacted legislation and regulations and of IACP's legislative and regulatory positions.
- 1.2.4 The public is aware of the positive value compounding pharmacy professionals provide to the health-care system
- 1.2.5 IACP generates, collects, distills and leverages data and research related to the work of its members to advance its advocacy agenda.

1.3 **(KNOWLEDGE)** Members have the knowledge and resources to excel in compounding pharmacy professions.

- 1.3.1 Knowledge and resources provided by IACP – including best practices, regulatory compliance and state-of-the-art patient care – encourage compounding excellence.
- 1.3.2 Members are recognized and valued for their knowledge and expertise.
- 1.3.3 Members (and non-members) see IACP as a primary resource for sharing of knowledge and resources related to pharmacy compounding professions.

1.4 **(ETHICS)** Members adhere to the highest standards of ethical practice.

- 1.4.1 Members subscribe to and honor the IACP Code of Ethics and demonstrate compliance with it.
- 1.4.2 The public recognizes and values IACP members for their professional ethics.

1.5 (PROFESSIONAL COMMUNITY) Members engage in a robust, multi-disciplinary community of compounding pharmacy professionals.

- 1.5.1 Members actively engage in exchange of ideas among compounding pharmacy professional members.
- 1.5.2 Practitioners, technicians and students are empowered to be leaders in compounding pharmacy professions.
