ISPE®

ISPE Strategic Plan Summary

2020–2022

Connecting Pharmaceutical Knowledge

Mission Statement

ISPE is the global industry leader in connecting pharmaceutical knowledge to deliver manufacturing and supply chain innovation, operational excellence and regulatory insights to enhance industry efforts to develop, manufacture and reliably deliver quality medicines to patients.

Vision Statement

Provide solutions to complex pharmaceutical industry challenges through manufacturing innovation, member and workforce development, technical, regulatory, and compliance collaboration.

Strategic Areas of Focus

- Manufacturing
- Supply Chain & Operational Excellence
- Innovation
- Regulatory & Compliance

Leading Authority for the Pharmaceutical Manufacturing Industry

STRATEGIC THEME

Build and Scale Content and Initiatives Relevant to Current and Emerging Therapeutic Modalities

INITIATIVES

- Thought leader driving innovative solutions for pharmaceutical manufacturing, supply chain operations, regulatory compliance, and quality assurance
- Go-to organization in technical problem solving for continuous and agile manufacturing of current and emerging therapeutic modalities:
    - Biotech (large molecules)
    - Small molecules
    - Cell and gene therapies
- Continue to drive digital transformation of manufacturing/data analytics (Pharma 4.0™)

STRATEGIC THEME

Balance Portfolio of Programs, Products, and Services to Optimize ISPE's Mission-Related Initiatives

INITIATIVES

- Establish a more disciplined approach to align ISPE content, products, and services with the Strategic Plan
- Identify and prioritize ISPE's mission-critical activities, balancing between industry, membership, and regulatory ambitions—always mindful of the patient
- Enhance programs with significant industry impact, e.g. GAMP®, drug shortages prevention, quality metrics, etc.

Building the Workforce of the Future

STRATEGIC THEME

Lead the Acceleration of the Pharmaceutical Industry's Efforts to Develop the Workforce of the Future

INITIATIVES

- Develop and implement a Workforce of the Future program, incorporating the following desired outcomes:
    - Workforce flexibility that is agnostic to therapeutic modalities
    - Transition of mature workforce to leverage their experience across the pharmaceutical industry
    - Equip pharmaceutical industry professional with knowledge necessary to make optimal use of electronic systems to accelerate product development, licensure, and launch

STRATEGIC THEME

Drive Member Value with Targeted Content, Communications, and Member Experiences Based on Professional Areas of Interest and Demographics

INITIATIVES

- Evaluate and prioritize targeted content to specific membership needs based on geography and/or professional status in the pharmaceutical industry
- Strengthen engagement in targeted geographic markets
- Continue ISPE's sponsorship of the Global Pharmaceutical Manufacturing Leadership Forum (GPMLF) to define pharmaceutical industry initiatives that drive solutions to complex industry challenges
- Establish Young Professional programs to improve knowledge base of pharmaceutical industry

Delivering Rapid and Relevant Pharmaceutical Manufacturing Information Globally

STRATEGIC THEME

Design and Implement Global Digital Transformation Initiative for Content Development, Knowledge Management, Access, and Distribution

INITIATIVES

- Continue modernizing ISPE's digital platforms to enhance the Member experience worldwide
- Increase engagement of subject matter experts and regulators on the timely delivery of content through guidance documents, conferences, and professional development

Strengthening ISPE Operations

STRATEGIC THEME

Foster Partnerships and Collaborations That Advance ISPE's Mission

INITIATIVES

- Maintain and foster regulatory interactions to advance common interests among the pharmaceutical industry and regulatory agencies
- Selectively identify and partner with other industry organizations on topics where expertise can be leveraged to a common interest consistent with ISPE's mission

STRATEGIC THEME

Improve Relevance, Impact, and Efficiency of ISPE's Volunteer Operations

INITIATIVES

- Enhance the volunteer model to drive agility and efficiency
- Develop a comprehensive engagement process for the Communities of Practice (CoP) to drive efficiency and align with regulatory and pharmaceutical industry initiatives
- Engage Affiliates and Chapters to enhance ISPE's operating model at the local level

Cultivating the Mission of the ISPE Foundation

STRATEGIC THEME

Promote and Support the ISPE Foundation

INITIATIVES

- Develop and execute a plan to promote the ISPE Foundation, the philanthropic arm of ISPE
- Identify opportunities to support the initiatives of the ISPE Foundation using ISPE's knowledge sharing platforms. Foundation initiatives include:
    - Student and Young Professional Travel Grant Program
    - Women in Pharma®
    - Emerging Markets Knowledge Exchange
- Assess opportunities to support ISPE Members and pharmaceutical professionals in addressing new and evolving industry challenges and trends
