WEBINAR
REMOTE AUDIT

Connecting Pharmaceutical Knowledge

October 21, 2020
09.00 – 12.00 WIB

In this unfortunate pandemic situation, implementation of on-site audit becomes a burden due to limitation of travel all over the world. In order to maintain the implementation of quality system, audit must still be carried out even in this difficult situation. For this reason, a new audit approach by utilizing remote technology and techniques has been sought. Implementation of remote audit becomes a new thing in new-normal era. Be prepared and ready for this remote audit.

WHAT is the objectives?

To give a better understanding of the implementation of remote audit. The webinar will give overview on the implementation of remote audit, what to prepare and how does it work.
