Monarch Service Corporation

Persinger & Associates

### Pre-Engineered Building: All Contract Amounts

In 2016, Wolf Creek Contracting, Koenig Resources & Williamson Shriver Architects entered into a contract to build a 32-door bay expansion/vehicle maintenance bay for a distribution facility in Nitro, WV.

The total cost of the facility was \$1,882,276 & is a fully pre-engineered metal building adding 16,306 square feet of space to an existing 16,520 square-foot distribution center. Over 80% of the work performed on the facility was self-performed by Wolf

Creek Contracting, Co. LLC. With the help of ABCWV members such as Koenig Resources, Garage Door Operators, Monarch Service & Supply Corporation, Persinger & Associates & Foster Supply Company, this project was completed over a four-month time frame & was available for immediate use under a short time frame due to the pre-engineered design.

### Safety and Design

General Contractor Wolf Creek Contracting Co. utilized a pre-engineered building concept to construct the 16,306 square-foot expansion. All overhead doors were provided and installed by Garage Door Operators out of Hurricane, WV.

The facility also includes new exterior concrete upgrades along with a state-of-the-art wireless communication system to aid in distribution services for the client was installed by Monarch Services. This project was completed on time & on budget with the help from numerous other ABCWV members.

### Project Duration:

- Four Months

### Project Safety:

- Wolf Creek Contracting Co., LLC. recorded no safety related incidents during the project's duration.
- Wolf Creek Contracting Co., LLC held both weekly & daily toolbox safety meetings.
