Dear students and young professionals,

The ISPE (International Society for Pharmaceutical Engineering Singapore) Student Chapter & Young Professional Chapter is hosting a **Virtual Hackathon from the 23rd October 2020 to 1st Nov 2020.**

The theme of this year's hackathon is on "Digitalization of Production Process and Pharma 4.0".

You will be randomly assigned to teams with a mix of students, young professional and an industry member coach to work on this hackathon challenge (adopted from a real-world problem). This event will be held virtually, each participant would be expected to contribute about 20 hours of their time over a period of 8 days.

This is a great opportunity for you to network with young professionals from the industry and engage in solving a real-world challenge, while demonstrating your technical knowledge, leadership, and teamwork.

The top prize consists of an opportunity to showcase Poster in ISPE Singapore affiliate's Conference and in ISPE USA's Annual meeting. Plus cash prizes for MVP and the best team and Tickets to the ISPE conference [Link]. Check out this video of Hackathon 2019 highlights [click here].

See you at the Hackathon.

Registration Link

Registration for the event would require either student or Young Professional membership with ISPE membership. The benefits of the membership can be found in this [Link]. Here are stories of how a student [video here] and young professional [Link] benefit from active engagement with ISPE.

For any queries please feel free to contact

ISPE Affiliate Manager – Kristina Autenrieth email: ispesingaffiliate@gmail.com

Hackathon Host – Wong Jianwei email: wongjianwei@americorresources.com

Best Regards,

ISPE SG Hackathon Organizing Committee
