The Long Island Association welcomes three top Long Island business leaders to discuss how they navigated the pandemic. Join Mark Fogel, President & CEO of ACRES Capital; Joe Horowitz, Director of Audit for Stetson Cybergroup; and Chris Ostrowski, Director of Marketing & Business Development from Mid-Island Mortgage Corp, to hear how they managed their businesses prior to Covid-19 and at its height. And hear how they are now conducting their "Business Today".

One of the many benefits of LIA membership is complimentary admission to all of our member strategic committees, policy forums and many of our special events.

**REGISTRATION IS REQUIRED**

***The Mission of the Long Island Association is to lead and unify the region in order to enhance, strengthen and protect Long Island as a premier place to live, work and play. The LIA shall advocate for policies, programs and projects that create jobs, spur private investment, reduce the federal, state and local tax burden, improve access to and from New York City and improve the overall business climate in our region. We will support economic development, workforce housing, greater state support for education, public safety, clean reliable energy, workforce training and retention, environmental protection, technology and infrastructure investments, and our not-for-profit organizations as well as opportunities for growth, equality and diversity in our region.***
