Ask the Experts – Panel Discussion

Art Show

Original works of art created by children, teens and adults diagnosed with dyslexia and other LDs.
See website for details.

Dr. ANTHONY BRANDT
Lenox Reed and Will Noel Keynote Lecture

MAKING CREATIVITY VISIBLE

Parents often identify creativity as an area of strength in children with dyslexia, and educators strive to engage creativity in the classroom. HBIDA is honored to present Dr. Anthony Brandt, a composer and professor at Rice University's Shepherd School of Music. Creativity is part of every human brain, and a central part our humanity. Where does this wellspring of inventiveness come from? Drawing on *The Runaway Species: How Human Creativity Remakes the World*, the book he co-authored with neuroscientist David Eagleman, composer Anthony Brandt will explore the biological and social underpinnings of creativity and describe a framework for how new ideas evolve. Knitting together the sciences and the arts, he will use a host of audio and visual examples to make visible the cognitive tools and strategies shared across disciplines. Finally, Dr. Brandt will argue that creativity should be nurtured in every child, and illustrate how these insights can be applied in the classroom.

Register online at houstonida.org

Status	Early Registration (Before Feb.7)	Regular Registration (Feb.8-14)
IDA member	$110	$120
Non-member	$150	$160
Parent of LD child (NO CEUs)	$90	$100
Student (with ID) (NO CEUs)	$60	$70
Institutional member	$70	$80
New IDA member	$80	$90

Registration closes on February 14, 2020 at 5:00 pm.
No personal checks accepted; no refunds after Feb. 14.
Scholarships available.
Participants can earn ALTA and TSHA CEUs.
