  - Share knowledge via presentation opportunity to participants from various industry decision makers, regulators and academia
  - Gain business opportunity through direct interaction with potential clients

ISPE Indonesia as an Affiliate of ISPE, has commitment to continuously disseminate best practice, current knowledge and technology, as well as advance trend in manufacturing of safe and effective medicine. Quality Culture of the company is the most important key to manufacture good quality, safe and effective medicine, therefore this culture must be built throughout the company. With the advancement of technology, the more rigid regulation of making safe medicine, and the more awareness of patients and customers, moving from manual to digitization is a must in the pharmaceutical industry.

For the above reasons the theme for 2024 ISPE Indonesia Affiliate is : **Quality Culture - from Vision to Passion – as a Competitive Advantage in Pharmaceutical Business.** This prestigious event ISPE Indonesia Conference will be held on **May 15th - 16th 2024 in DoubleTree by Hilton Jakarta Kemayoran (previously known as Holiday Inn Kemayoran)**

The ISPE Indonesia Annual Conferences are attended by average 300 participants, consists of key persons, decision makers and experts from various industry, consultants, academia and regulator. For this purpose, ISPE Indonesia invites Industry Professionals, Vendors to Industry and academia to participate by attending the event in order to understand recent technology and regulation shared by subject matter experts during Plenary Sessions as well as Education Tracks.
