Rev. Dr. Steven Schave

Executive Director / CEO of LAMP
(Lutheran Association of Missionaries and Pilots)

LAMP is a cross-cultural ministry sharing Jesus Christ with God's people in remote areas of Canada, and is an Auxiliary of Lutheran Church–Canada (LCC).

Rev. Dr. Steven Schave currently serves as the executive director of the Lutheran Association of Missionaries and Pilots (LAMP).

Rev Schave is the former Pastor of our St Paul Lutheran church.

His church work began in church planting with a focus on outreach through human care and then onto church revitalization with a focus on neighborhood renewal in the inner city.

Rev. Schave has years of experience in connecting Word and Sacrament ministry with engaging communities. He founded the MissionField: a USA initiative, which was adopted in the LCMS synod national convention in an effort to plant new cross-cultural ministries by working through districts to send national missionaries that he supervised. He also developed the national Save Our Cities Fund, Big City Mission School Program, The Hero Academy, Urban & Inner-City Webinar series, and Denarius Social Enterprise learning modules.

Previously, Rev. Schave has served as:

- regional Vice-President in the Southwest region of the LCMS Ohio District
- was third vice-president of the presidium.
- served on the Board of Directors for Lutheran Housing Support for several years.
- served in the LCMS Office of National Mission as both director of Church Planting and director of Urban and Inner-City Missions.
- served as the director of LCMS Urban & Inner-City Mission in January 2014
- served as director of LCMS Church Planting in January 2015.

Rev. Schave is a second-career pastor and a former business executive with a decade of experience in entrepreneurship, business systems, and executive leadership.

Rev. Schave received his Doctor of Ministry at Concordia Theological Seminary in Fort Wayne with a dissertation that focused on church planting resources for the synod based on a witness, mercy, life together framework for doing missions. It became the foundation for the national training resources that he developed for the LCMS. This led to the beginning of a monthly podcast, as well as the largest study of its kind on LCMS mission work in the US to reach new people groups in new places.
