# HOLIDAY GIFT GUIDE

CIRCLES CONCIERGE - 2018

## EVER WONDER?

- What do you get Grandpa and your 4-year old niece?
- What's the latest & greatest toy for your 7-year-old?
- What to get for the office gift swap?

We know how busy you are at this time of year. You don't have the time or energy to figure out what to get the people on your list. Circles can help you! From the latest and greatest gifts to exclusive money-saving offerings, we will make this the least stressful holiday season yet!

## THIS YEAR'S HOT TOYS\*

for kids of all ages on your list

### Think & Learn Rocktopus

Mattel's Think & Learn Rocktopus brings math and music together for children between the ages of three and six. Kids pop in music pods to create their own compositions or to learn simple addition and subtraction. The toy had five musical genres: pop, rock, funk and jazz, classical and world music.

### Air Hogs Supernova

Drones no longer need a remote control. The Supernova from SpinMaster is launched by throwing it into the air and controlled using your hands (or feet). The drone has five motion sensors and reacts to hand gestures to perform tricks, move up and down, and side to side.

### MorfBoard

MorfBoard is a four-in-one sport toy from Jakks Pacific. The board has detachable extensions that allow kids to morph it from a skateboard to a scooter with ease. For an additional cost, kids can add a bounce or balance extension to the board.

## STEM TOYS

Get something for your children that can prepare them for the future. Learning just got a lot more fun with these award-winning STEM (science, technology, engineering and math) toys. Kids won't even know they are learning.

### [Fisher-Price Think & Learn Code-a-Pillar Toy](#)

For the preschool set, this cute and colorful code-a-pillar will pull kids in with fun and teach them a thing or two along the way.

Recommend Ages: 4+

### [Osmo Genius Kit](#)

For kids who can't seem to get enough screen time, this kit can help them make great use of that time. The award-winning toy turns their iPad into a fun, hands-on teaching machine and helps build skills in math, spelling, creative thinking and drawing.

Recommend Ages: 5+

### [Bit by Ozobot, Black](#)

These little bitty robots are a hit with kids who can program them with simple color coding. They simply draw color codes on paper or on a tablet device, and then "Bit" follows their commands — spinning, speeding up, turning and more.

Recommend Ages: 8+
