KidSight Vision Screening

Our Vision Screening Detects:

Nearsightedness – cannot see far away
Farsightedness – cannot see close up
Astigmatism – cannot see far away or close up
Amblyopia – "lazy eye"
Anisometropia – one eye sees clearly and one is blurred
Anisocoria – pupils are unequal
Misalignment – eye turning in or out

Date: Wed. 2/5 & Thurs. 2/6 **Time:** N/A

Place: Presentation ECC

"It takes this technology to help parents figure out that their children need help," said Kristina. "I cannot say thank you enough to Saving Sight and KidSight for the impact the screening has had on my son. He would have missed out on years of not being able to see things properly."

Healthy vision is essential to your child's success in school.
