Seniors' Program

God is doing some truly amazing things in our Senior's ministry!

We shared with you earlier this year that we have transitioned our Seniors' Program from a staff-led to a community volunteer-led program. With this change, the participation by community seniors has increased 5-fold, with a number of first-time participants joining the group.

The Seniors' Team has begun home visits of community shut-ins, with most visits including a flower hanging basket from our greenhouse and a shared meal with the senior member of the community being visited. This has proven to be a true blessing to those who are visited, as well as for those making the visits.

Home visit with Nevada Partin

Nevada came to her door and welcomed us into her home, which displays some beautiful old blue dishes.

She was a career woman in her lifetime, starting out as a teacher and eventually moving up to claim the title of principal at Frakes Elementary School.

Tragedy after tragedy seemed to come into her life so often. She lost her parents in a house fire, her only child, a daughter, and then her son in law.

She has two grandsons who come by often to help and check in on her.

On May 10th we delivered her a basket of flowers for Mothers Day and she immediately began crying. After she explained that May 10th was the date she lost her daughter, we cried with her, too.
