Greenhouse Operations

UPDATE: As we continue our renewal process, we will be replacing one of the greenhouse's plastic cover each year, beginning this year with GH#1.

We will also replace the old GH tables. A project which is already a third complete, thanks to the help of our most amazing volunteers!

Beans, beans, and more beans! Although only about 25% of the new High Tunnel is planted with beans, we have already harvested about 200 pounds of beans. Thank you to ALL who have made this possible. If you would like to follow the story of these beans… (it is in 2 parts)

Casey, Mike, & the BEANS!
