Dear Friends,

I reach out to you again for one more opportunity to help with the effort to change the college name and drop the word "junior" from our title.

The two State House Representatives that are sponsoring the bill have asked that the college conduct polling among our employees, faculty, students, alumni and community. To do so, the college created a link on our website to allow people to vote for or against the change.

I hope that if you haven't done so already, that you would go to: **https://www.njc.edu/name-change-vote** and cast your vote in favor of the name change.

It would be great if we could demonstrate to the state legislature that Northeastern has a large contingent of individuals feel this change is appropriate and necessary at this time in the college's great history.

Thank you for your support. It means a great deal to me.

Jay
