Our FBG Covid Care Covenant

We should not just take care of ourselves, but we should also care about others. Philippians 2:4

1. We stay home if we might be sick.

2. We wear masks and stay apart from each other whenever we're at church.

3. We follow instructions about which doors to use to come in or out of church, and we use hand sanitizer whenever we go in and out.

4. We only use the restrooms we are told to use at church.

5. We stay positive and try not to complain about the rules that keep us safe—even when they make life harder.

6. We trust that the people leading us will make sure we're kept safe.

7. We trust that our church will clean areas we use when we're done.

8. We expect that a church leader will meet us whenever we come to church and will remind us of our Covid Covenant

9. If we see anyone in our church family forgetting and not following our covenant, we'll give them gentle reminders.

10. We will remember that even when we try our hardest to keep safe, sometimes people get sick. We will let our group leader know if we test positive for Covid –19 and have been around the church within the last 2 weeks.
