9/11 WE WILL NEVER FORGET

September 11, 2001 - The worst terrorist attack in U.S. history occurred as four large passenger jets were hijacked then crashed, killing nearly 3,000 persons. Four separate teams of Mideast terrorists, operating from inside the U.S., boarded the morning flights posing as passengers, and then forcibly commandeered the aircraft. Two fully-fueled jumbo jets, American Airlines Flight 11 carrying 92 people and United Airlines Flight 175 carrying 65 people, had departed Boston for Los Angeles. Both jets were diverted by the hijackers to New York City where they were piloted into the twin towers of the World Trade Center. The impact and subsequent fire caused both 110-story towers to collapse, killing 2,752 persons including hundreds of rescue workers and people employed in the towers. In addition, United Airlines Flight 93, which had departed Newark for San Francisco, and American Airlines Flight 77, which had departed Dulles (Virginia) for Los Angeles, were hijacked. Flight 77 with 64 people on board was diverted to Washington, D.C., then piloted into the Pentagon building, killing everyone on board and 125 military personnel inside the building. Flight 93 with 44 people on board was also diverted toward Washington but crashed into a field in Pennsylvania after passengers attempted to overpower the terrorists on board.

CENTRAL PIPE SUPPLY, INC.

NEWSLETTER SEPTEMBER 2024

WWW.CENTRALPIPE.COM

VENDOR OF THE MONTH

HP Storm Dual Wall Pipe

This high-performance polypropylene (PP) pipe is the perfect choice for gravity-flow storm drainage applications and when premium joint performance and/or greater pipe stiffness is required. It couples advanced polypropylene resin technology with a proven, dual wall profile design for superior performance and durability. The smooth interior wall offers additional strength as well as superior flow.

WHAT'S COOKIN'

Best Toffee Ever

INGREDIENTS:

- 2 cups unsalted butter
- 2 cups white sugar
- ¼ teaspoon salt
- 2 cups semisweet chocolate chips
- 1 cup finely chopped almonds

DIRECTIONS:

1. Combine butter, sugar, and salt in a large, heavy-bottomed saucepan over medium heat; stir constantly in one direction until butter is melted, about 5 minutes.
2. Meanwhile, line a 9x13-inch baking dish with a sheet of parchment paper, letting it overhang two sides of the dish.
3. Once the butter has melted, stop stirring and bring mixture to a boil. Once boiling, cook, stirring only 2 to 3 times, until it turns a dark amber color and the temperature reaches 285 degrees F (137 degrees C) on a candy thermometer, 20 to 30 minutes.
4. Immediately pour toffee into the prepared baking dish. Sprinkle chocolate chips on top and let sit until they soften, 1 to 2 minutes. Use a spatula to spread softened chocolate into a thin, even layer. Sprinkle nuts over the chocolate and press down slightly; wearing a plastic bag over your hand will minimize the mess.
5. Place toffee in the refrigerator until set, about 1 hour.
6. Lift hardened toffee out of the baking dish with the parchment paper. Break into pieces and store in an airtight container.

LABOR DAY

Labor Day is a federal holiday in the United States celebrated on the first Monday in September to honor and recognize the American labor movement and the works and contributions of laborers to the development and achievements of the United States. The three-day weekend it falls on is called Labor Day Weekend.

Beginning in the late 19th century, as the trade union and labor movements grew, trade unionists proposed that a day be set aside to celebrate labor. "Labor Day" was promoted by the Central Labor Union and the Knights of Labor, which organized the first parade in New York City. In 1887, Oregon was the first state of the United States to make it an official public holiday. By the time it became an official federal holiday in 1894, thirty states in the U.S. officially celebrated Labor Day.
