Sustainable Medfield Announces Action of the 2nd Quarter 2025

Reject Fast Fashion: *Refuse/Reduce/Reuse/Recycle*

Sustainable Medfield is pleased to announce that its Action of the Quarter is **Reject Fast Fashion: *Refuse/ Reduce/ Reuse/ Recycle*.**

Sustainable Medfield works to amplify and elevate messages of its partner organizations to educate residents on issues related to sustainability. We work with TSARC (Transfer Station and Recycling Center), Medfield Environment Action, Medfield High School's Environmental Club, and other local groups. Our goal is to share ideas on ways to educate the public about the humanitarian cost of Fast Fashion consumerism and the impact of excessive clothing waste on the planet, and to give suggestions on what individuals can do about it. Join other town residents to help us spread the word about this under-publicized crisis.

Throughout the quarter, we will promote special presentations, films and events related to Fast Fashion's detrimental impact on the environment. For weekly tips and updates, follow Sustainable Medfield on Instagram and Facebook. Sustainable Medfield will also host a booth at several upcoming Medfield Community Market days. Stay tuned for dates and please stop by to say hello and learn more about this topic.
