PRESENTED BY NEW DAY FILMS

Movie Night

2 free screenings of Catching the Sun

Solar energy is an important part of Medfield's Climate Action Plan.
Learn how the transition to solar power is taking shape in many diverse communities.

"A must-see film. An eye-opening look at workers and entrepreneurs on the forefront of the clean energy movement that will transform, and enliven the way you see the future. What is clear is the wonderful opportunity the transition to clean energy represents."
Mark Ruffalo

Monday,
March 27th
