Health IT Requirements Office Hour	February 8, 2017	National Webinar	Health IT that supports a population of patients is critical to the efficient delivery of care but is not commonly available. All practices in CPC+ need to use certified Health IT, however, Track 2 practices are asked to adopt additional certified Health IT for care plans and social, behavioral, and psychological data. Collaborating with Health IT vendors will help you ensure your practice has the technology it needs to achieve its care delivery goals.	https://youtu.be/adawo6xCvcI
Comprehensiveness and Coordination	February 16, 2017	National Webinar	This webinar describes key components of coordinating care, how practices can increase comprehensiveness of services and how to effectively screen patients for health-related social needs and connect with community-based services and support.	https://youtu.be/fgcGNnV2rP8
CPC+ Monthly Office Hour – February	February 23, 2017	Office Hour	During this Office Hour session, the CMS team answers questions related to CPC+.	https://youtu.be/_29klHrBrGU
Planned Care and Population Health	March 2, 2017	National Webinar	This webinar covers the key components of population health management as well as planned care approaches. Proven strategies are shared that you can implement at your practice and first-hand accounts are shared from other CPC+ clinicians who have used these approaches to improve population management.	https://youtu.be/d-913NXEKPE

Care Delivery Reporting: What, When, and Why	March 8, 2017	National Webinar	Reporting is a necessary and important aspect of your participation in CPC+. As we continue to learn together, the information you provide on your practice transformation efforts is extremely valuable. Care delivery reporting helps CMS understand practice progress related to CPC+ aims, and helps to inform improvements to the program in future quarters. The information you submit guides future CPC+ learning offerings, and offers insights into changes that have the highest value to both patients and practices.	https://youtu.be/10FYxdbXAsM
Patient and Caregiver Engagement	March 16, 2017	National Webinar	Patient and caregiver engagement combines a patient's willingness and ability to manage her or his own health care with strategies aimed at promoting and/or incentivizing healthy behaviors and achieving health goals. Patients who are effectively engaged have the opportunity to assess and make choices about how they receive care, with the understanding that clinicians like you will use this information as the foundation for building a trusted, healing relationship with their patients. Patient and family caregiver engagement also encompasses opportunities for your patients to participate in efforts to improve health care delivery.	https://youtu.be/iaKRiZoG1cc
Care Delivery and eCQM Reporting Office Hour	March 22, 2017	National Webinar	During this Office Hour, we will review and discuss questions related to Care Delivery and eCQM reporting with the CPC+ team.	https://www.youtube.com/watch?v=X6Ypuu-GBbk&feature=youtu.be
