    Vice Chair-Special Education Advisory Council

SPED Assistant Director's Message
Dr. Herbert "Junella" Boat

"A World of Opportunities"

As a society it is our utmost duty to allow people with disabilities to experience a life they deserve.

Disability awareness has been given prominence over the decades, making it easier for the people with disabilities and the society to develop empathy for one another. It has also helped in subsiding the stereotypical mindset of the society, hence providing vast opportunities for everyone to get involved in creating a positive, inclusive society to all.

We are all different but very much alike at the same time! Thank you for all your support in making sure that as society, we are opening doors for "A World of Opportunities" to all people with disabilities.

What door are you opening for a person with a disability?

Soifua ma ia Manuia!
