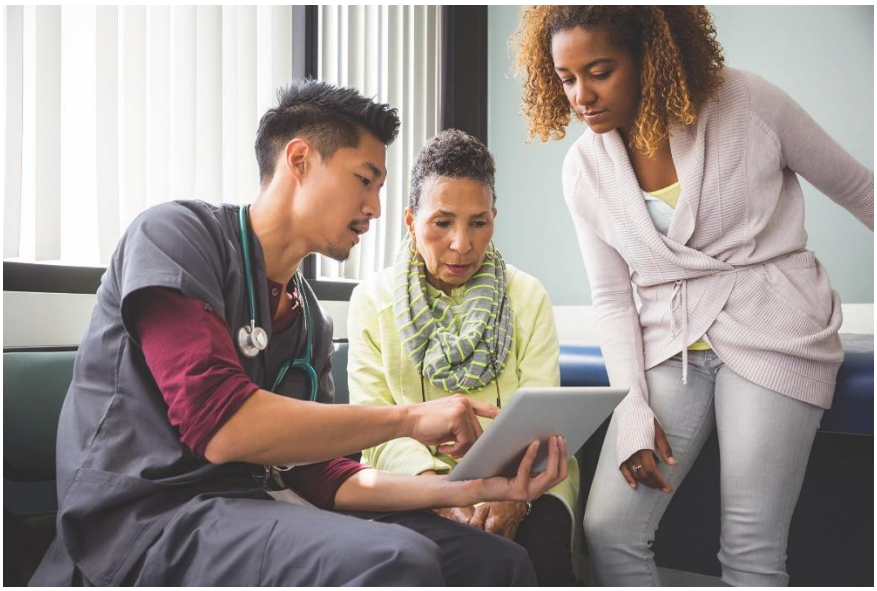
John Muir Health Wellness Webinar Series 2023

Cardiac Wearable Technology



Join John D. Vu, MD FACC, to learn more about cardiac wearable technology, and how it helps patients monitor their heart health. Learn the pros and cons of some of these "smart" devices, as well as how this technology has evolved from niche fitness tracking, now into personal preventative healthcare. This live webinar will be recorded and sent to those that register.

Tuesday, February 28, 2023
11:30am-12:15pm
Register HERE

There will be time for Q&A following the presentation.
Please forward this to a friend, client, or colleague.
