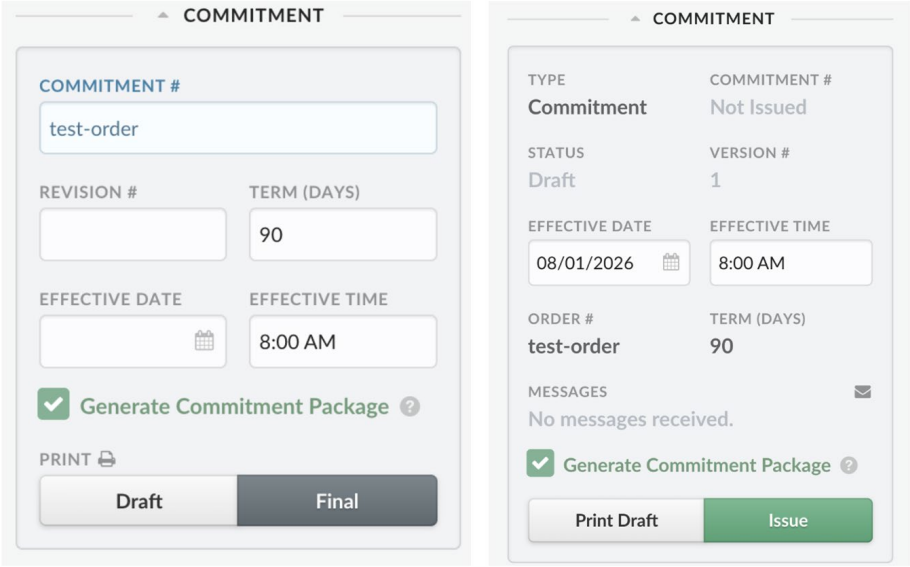
Impact to Agents

BEFORE – UMS FILE BEHAVIORS	AFTER – ALIGNED WITH NON-UMS FILE BEHAVIORS
"Print Draft" and "Issue" buttons	"Draft" and "Final" buttons
"Issue" commitment behaves like a policy — locks, versions, sends to Assure	Standard Draft/Final behavior
Draft prints as Word doc, Final prints as PDF	Draft prints as Word doc, Final can be Word doc or PDF based on admin configurations
Final naming is fixed	Final respects Lock Final Commitment and Append Revision Number admin toggles
"Type" field in right rail	Removed
"Commitment #" (auto-assigned)	Editable field, defaults to order #
"Status" field	Removed
"Order #" field	Removed
"Version #"	Renamed "Revision #", editable, respects Auto-Increment Revision Number toggle
Post-issuance "Void" option	Removed (no issuance to void)
“Messages” field	Removed (relevant messages are still shown under Partners > Messages)

Impact to Agents

BEFORE – STANDARD COMMITMENT RAIL (LEFT) VS. UMS COMMITMENT RAIL (RIGHT)



AFTER – STANDARD COMMITMENT RAIL (LEFT) VS. UMS COMMITMENT RAIL (RIGHT)
