City gets ready for furniture market

LAURA GREENE | HPE

Crews with City Transfer & Storage use a large crane to install The Point, a central pop-up space near Wrenn and Main Street in preparation for the upcoming High Point Market. The pop-up space is used for events and seminars, a tour meeting point, and offers market attendees a place to rest, get assistance and find information. The fall High Point Market takes place Oct. 17-21.
