Beyond The City Limits

Where are the City Limits in the ministry efforts of your congregation?

Any congregation can expand their ministry in spite of their perceived limitations. The location of your congregation is the least significant factor in sharing the good news.

There is a need today for people who are aware of many different ways to connect with our world. Let's move out of the mindset of the attractional model for church growth – waiting for the community to find us - and move into a more missional minded model of church growth.
