Climate…Changed! Series Recap
from March 22, 2023
Climate Policy
Green Energy Consumers Alliance

What can we do as individuals?

- "Shave the Peak" – sign up **HERE** for text alerts about peak energy usage times (Advanced meters will become available).
- Use electricity (dishwashers, laundry charge cars on off-peak times).
- Electrify as much as possible and move away from fossil fuels.
- Push bills at the state house level to incentivize users to go green.
- Learn more about managing your energy usage at **Green Energy Consumers Alliance of RI.**

READ MORE about key climate policies and bills being pushed in the General Assembly this session.
