Fourth of a Six-Week Series
Sponsored by the UUCSC Social Justice Committee

Tuesday, April 11, 2023, 7-8 PM.
Intro to Composting (Part I)
Meghan Washburn, RI Resource Recovery

Please register **HERE**. Registration link is also on the website calendar. You will receive the Zoom link immediately by email.

You will get all the information you need to start composting in your backyard. Topics covered include a review of different ways to compost, what goes (and does not go!) into your compost bin, best practices for managing your bin, and how to harvest and apply your finished compost. If you are at all interested in composting, learn how to do it right. It takes extra effort but the benefit on the environment and your lawn or garden is huge.

Coming up in the Climate…Changed! Series:

- Tues. April 18, 2023 7-8 PM Composting Part 2 (Green Burials)
- Tues. April 25, 2023 7-8 PM Climate Emergency Preparedness
