SuperHealth Manuals:

For easy use & teaching: Synthesized perfectly for each substance group & behavioral issue:

- ❖ Principles & Practices
- ❖ Technology Manual

Course Overview:

The complete **Immersion Training** is a perfectly integrated physically, mentally and spiritual based methodology for breaking habits and behavioral addictions.

We live in a global society filled with many kinds of addictions. Pressures are growing daily and will not subside anytime soon. To cope with these demands, we seek momentary relief with external stimulations and other gratifications. To replace the “urge” to decompress reaching for drugs, alcohol or food, we can replace the impulse with healthy, productive and self-sustaining technologies. This leads to our greatest well-being and personal excellence.

The training is a golden opportunity to understand through your own personal process, the effectiveness of the technology. The Kundalini Yoga Certified Teacher can teach with a depth through their firsthand experience. The healthcare professional will find it effective to integrate into a clinical treatment protocol.

Training Modules:

❖ **Kundalini Yoga**

- Eliminate toxic overload and strengthens nervous and glandular systems weakened by substances, junk food and stressful lifestyle. Develops “grit” attitude and self-control
- Space Age aerobics

❖ **Meditation**

- Addresses mental trauma forming root cause of problems and recalibrates imprint of addictive patterning on psyche

❖ **Nutrition Restoration**

- Detoxification and Rehabilitation Process with ancient formulas to cleanse and rebuild the system, change chemistry of the blood and affect food metabolism
- Two-Day Experiential Detoxification and Rehabilitation Regimen – you will be served a blend of specific therapeutic juice formulas, diets, herbs and vitamins as directed by Yogi Bhajan

❖ **Science of Humanology - Optimal human potential, transcending self-destructive patterns**

- Parental Phobias
- Self-Defeating Mental Attitude
- Compassionate Parental Identity
- Generational Wounding

Yogic Science for Breaking Habits & Addictive Behaviors

SPECIALTY PROFESSIONAL TRAINING

“as authentically taught by Yogi Bhajan”

❖ **Yogic Physiology and Anatomy**

- Science of Addiction: The effect on the brain, nervous and glandular system from particular substances. Therapeutic formulas and specific perspectives to combat urges, cravings and address mental trauma and physical weakening of central nervous system.
- Sound Affirmation Therapy – a psychological clearance of subconscious blocks.
- Hypothalamus and frontal lobe of the brain.
- Recalibrating automatic habitual and addictive patterning through mantra and chanting.

❖ **Counseling: A Spiritual Touchstone**

- Discuss application of therapeutic techniques in professional practice and clinical settings
- Use in personal life for self-help and growth
- Teaching tool

❖ **Touching the Human Spirit**

- Protocol of service to reach out compassionately and neutrally as an *Analytic Technician* of the Teachings

❖ **Hydrotherapy**

- Cold water therapy to stimulate circulation and revitalize entire body systems

This training is opportune for:

- Kundalini Yoga Certified Level One Teachers
- Teachers or students in all yoga traditions
- Healthcare professionals and healing specialists
- Anyone in the process of making serious lifestyle changes

Objectives:

- 1) Identify impulsive and gratification behaviors to counter the effects of addiction.
- 2) Understand how mental trauma and subconscious blocks can be relieved through yogic technology.
- 3) Demonstrate the cleansing and rehabilitation process through food, diet and therapeutic juice formulas.
- 4) Training Kundalini Yoga teachers and healthcare professionals.

Frequently Asked Questions:

Q: When should I arrive and depart?

- A: We recommend you to **Arrive** Friday, March 31st by 5:00 pm or earlier, as course begins on Saturday at 9:00 am. This will allow you to check-in regarding logistics and your accommodations.
- **Depart** Sunday, April 9th anytime. The course will conclude Saturday, April 8th at 4:00 pm. If you chose to depart on Saturday evening, please be sure to schedule departure **after** the course concludes.

Q: Although I understand sadhana is conducted daily from 3:45 am – 6:45 am and is optional, how do I get through such a long day?

- A: Participation in sadhana is the one single activity to make significant lifestyle changes for anyone. This is an opportunity to give a full experience and understanding of the technology. Sadhana is recommended though optional and you can participate as best you can. 70% of the benefits are just getting there. You can sleep and rest during sadhana. Bedtime is recommended at 9 pm.

Q: Will I need a car and how far is the course location from the Albuquerque Airport?

- A: It is not essential that you have a car though it is more convenient. Many people couple their rides. The Albuquerque Airport is 1.5 hours from Espanola. The Santa Fe Airport is 30 minutes from Espanola. There are shuttles into Santa Fe and Espanola. Please see TRAVEL section.
