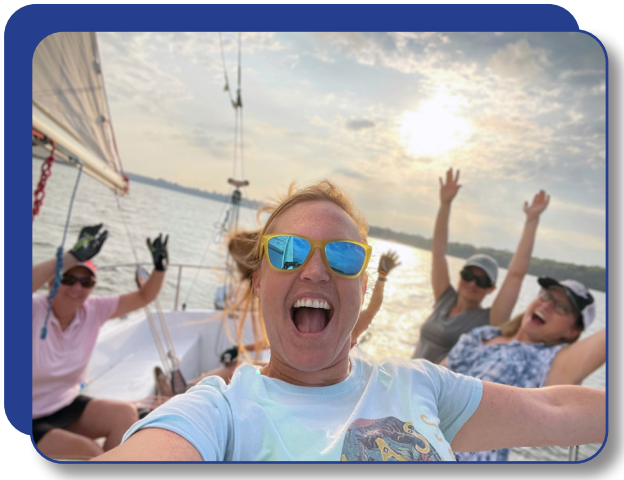
Hi Everyone!

My name is Sarah Dolezilek, and I am equally as thrilled to join the ACEC/NC team as YOUR new Member Relations Director. I graduated from Kansas State University with a degree in Communications and Public Relations. I bring with me over 15 years of experience in association management and I am extremely passionate about fostering strong relationships and driving member engagement. The bulk of my professional background includes working for ASET – The Neurodiagnostic Society, where I developed multiple programs and conduits to increase membership and promote the Neurodiagnostic profession. This experience equipped me with the skills and insights to effectively support and advocate for our member firms at ACEC/NC.

I pride myself on my ability to connect with individuals on a personal and professional level, to inspire collaboration, and drive positive outcomes. Outside of work, I enjoy camping, paddle boarding, watching sports and socializing with friends. On any given weekend you can find me out on Jordan Lake, walking around a Food-Truck Rodeo at Central Park, or cheering on the Kansas City Chiefs at a local establishment! I love to travel and enjoy skiing, sailing, hiking, or just lying on the beach, although I'm known for often getting caught in the rain!



I am excited to collaborate with all of you to enhance our member services and ensure that ACEC/NC continues to be a valuable resource for the Engineering community. Please feel free to reach out to me with any questions, suggestions, or just to say hello. I would love to hear what makes you smile!

I look forward to getting to know each of you and working together to cultivate a strong and cohesive built environment of member firms within ACEC of North Carolina.

Cheers,
Sarah
