The Process:

Discover:

Based on your answers to a brief questionnaire, ELEVATE is able to prioritize your needs into five major categories: cost, image, productivity, health and hygiene, and sustainability.

Evaluate:

After you answer questions related to your purchasing and ordering habits, ELEVATE will provide you with a cost savings report directly related to your supply chain processes.

Explore:

In the final section, ELEVATE will take you on a guided walkthrough of your facility, and recommend products in each area that best achieve your company goals.

Product cost is only one small part of the game!
