3M LITTMANN CLASSIC III STETHOSCOPE

Right out of the box, it lives up to its name. The Classic III stethoscope is the latest version of the stethoscope that helps millions of medical professionals to auscultate effectively. It brings design, materials, and technology to the Littmann stethoscope series used by clinicians around the world. The Classic III stethoscope offers you:

High acoustic sensitivity for performing general physical assessments.

Tunable diaphragms on both the adult and pediatric sides of the chestpiece.

Single-piece diaphragm that's easy to attach and easy to clean because the surface is smooth without crevices.

Next-generation tubing with improved resistance to skin oils and alcohol for longer tubing life. Less likely to pick up stains.*

Using a Classic III stethoscope demonstrates what's important to you as a medical professional: quality and achievement.

Features:

Tunable technology is a 3M invention that lets you shift between hearing high and low frequency sounds by simply adjusting how much you press on the chestpiece.

Soft-sealing eartips give you a comfortable fit and an excellent acoustic seal; they snap tightly onto the eartubes for safety.

Open bell stays clear of dirt and debris by keeping it covered with the small diaphragm.

Adjustable headset lets you easily set the tension for head size and comfort just by squeezing or pulling apart the eartubes.

No natural rubber latex or phthalate plasticizers are used in the tubing or any other component to help protect human health and the environment.

355-5620	Black with Black Chestpiece	\$94 ⁹⁹	Each
