

GARDEN STATE COALITION FOR CARE

Garden State Coalition for Care (GSCC) is an alliance of advocates and organizations from across the state of New Jersey dedicated to empowering and supporting people with disabilities, older adults, and low-income families and individuals make better lives for themselves.

No one should be without care or food.

What We Do

The coalition formed in response to H.R. 1, which slashed federal funding for critical programs such as Medicaid and SNAP and enacted burdensome eligibility checks and new work requirements that threaten to devastate the lives of millions in New Jersey.

GSCC members combine expertise, share information, and mobilize support for people most at risk of harm, including older adults and people with disabilities. Our goal is to soften the impact of H.R. 1 through education and resources to prepare individuals for the new requirements.

Why This Matters

People of all ages, from all backgrounds, should have access to medical care and nourishing meals. Older adults and people with disabilities deserve to live independently and where they choose. H.R. 1 threatens our ability to uphold these values.

New Jersey will face difficult decisions ahead, as the significant loss of federal funding could result in cuts to home and community-based services. People with disabilities and older adults will face health risks, financial hardships, and the possibility that they could be forced out of their homes and into institutions.
