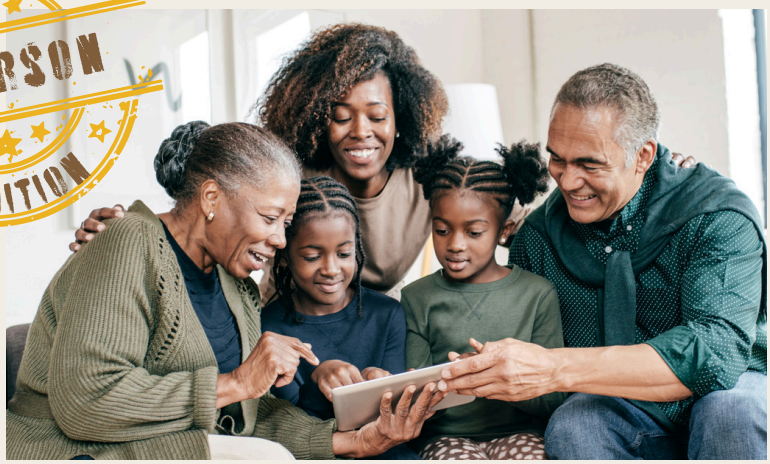
NEW IN-PERSON EDITION

Parent Workshop for Single Parents and Grandparents



The START Initiative is a family support program designed for families in Pasco and Hernando Counties who want to strengthen their parenting skills and better navigate today's challenges.

We are excited to announce a Single Parent and Grandparent Circle of Security Workshop, IN-PERSON at One Stop Shop in Dade City!

Circle of Security (COS) is an evidence-based parenting approach that helps caregivers understand and respond to children's emotional needs. It can be particularly valuable for single parent households and grandparents who are raising grandchildren, whether temporarily or long-term.
